

Kingdom Hall Zoom Macro Controller

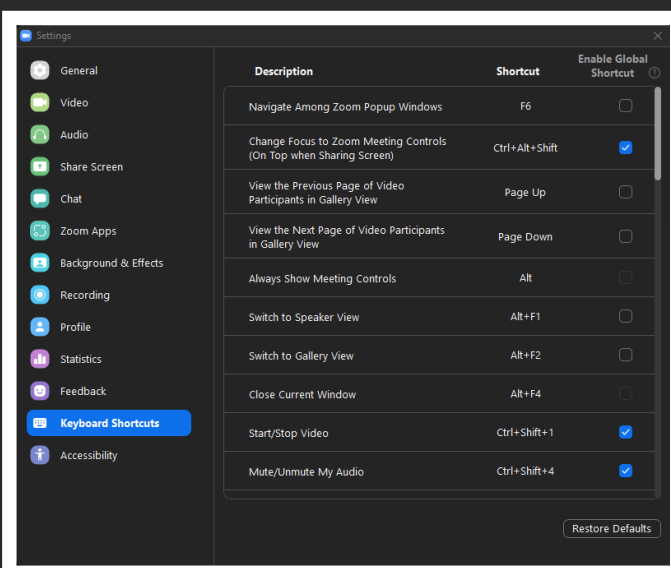

Setup Guide

May 2022
L.C.HUGHES

Open zoom and go to the settings, by pressing the settings cog.

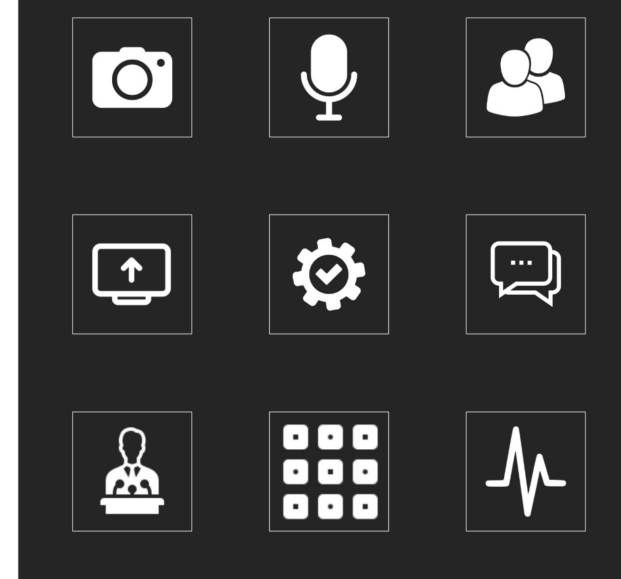

Proceed to the Keyboard Shortcuts tab on the left.

Here the shortcuts need to be amended and the ones listed in the macro keypad list need to be set as global.

The macro keyboard has preset commands to send the key presses of CTRL+SHIFT+1-9

An easy way to set up the keys is to use the macro keypad to do so. For example, to set the shortcut for the camera on/off you can press the shortcut on the settings and then press the camera icon on the keypad, then you can make the shortcut global by ticking the box.

The next page will show the shortcuts.

 Start/Stop Camera - CTRL, SHIFT, 1

 Mute/Unmute - CTRL, SHIFT, 2

 Participant List - CTRL, SHIFT, 3

 Start/Stop Share - CTRL, SHIFT, 4

 Show/Hide Controls - CTRL, SHIFT, 5

 Chat List - CTRL, SHIFT, 6

 Speaker View - CTRL, SHIFT, 7

 Gallery View - CTRL, SHIFT, 8

 Task Manager - CTRL, SHIFT, ESC
